Risks Associated with Breaks in the Cold Chain

To protect from excursions during breaks in the cold chain

All technical information set out herein is provided free of charge and is based on technical data which DuPont believes to be reliable. It is intended for use by persons having skill, at their own discretion and risk. Since conditions of product use are outside of our control we make no warranties expressed or implied in relation thereto and therefore cannot accept any liability in connection with any use of this information. To maintain efficacy, DuPont™ Tyvek® Cargo Covers must be stored in the original package under dry, normal temperature conditions. New and used covers are expected to deteriorate if not properly protected from dust, heat and humidity. DuPont™ Tyvek® Cargo Covers have been designed for a recommended one-time use to protect temperature sensitive products. Covers are to be considered as complementary to a user's established cold chain best practices, according to the Good Distribution Practice. DuPont is not liable for product damage during the use of the cover. Nothing herein is to be taken as a license to operate under, or a recommendation to infringe any patents.
